

REMARKS

This case has been carefully reviewed and analyzed in view of the Office Action dated 14 December 2005. Responsive to the Office Action, Claim 1 has been amended to clarify the combination of elements that form the invention of the Subject Patent Application and Claims 13 and 27 have been amended to clarify the relative position of the translucent portions and/or reflecting portions of the reflective plate. Additionally, Claim 11 has amended to change the dependency thereof and Claims 8, 9, 10, 25 and 26 been cancelled by this Amendment.

In the Office Action, the Examiner objected to Claims 13 and 27 because the position of the second translucent portion or whether the reflecting plate has two reflecting surfaces was not recited. Accordingly, Claims 13 and 27 have been amended to respectively clarify the arrangement of the translucent portions and /or reflecting surfaces. It is now believed that the Examiner's objections have been overcome.

In the Office Action, the Examiner rejected Claims 1 - 9, 11, 12, 25, and 26 under 35 U.S.C. § 103(a), as being unpatentable over Liao, U.S. Patent No. 5,764,493. However, the Examiner kindly indicated that Claims 13 - 24, and 27 - 29 were allowed and Claim 10 would be allowable if rewritten in independent form, including all of the limitations of the base claim and any intervening claims.

Accordingly, Claim 1 has been amended to incorporate the limitations of Claims 8, 9 and 10 therein. Thus, Claim 10 has effectively been placed in

Reply to Office Action dated 14 December 2005

independent form, including all of the limitations of the base claim, Claim 1, and the intervening claims, Claims 8 and 9. Thus, Claim 1 and the claims dependant thereon should now be allowable.

It is now believed that the subject Patent Application has been placed in condition for allowance, and such action is respectfully requested.

Respectfully submitted,
For: ROSENBERG, KLEIN & LEE
